## Product Datasheet

### Human CPP(Copeptin) ELISA Kit EBT-ELK10644

Artikelname	Human CPP(Copeptin) ELISA Kit
Artikelnummer	EBT-ELK10644
Hersteller Artikelnummer	ELK10644
Alternativnummer	EBT-ELK10644-96, EBT-ELK10644-96X5, EBT-ELK10644-48
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	10 ng/mL
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.061 ng/mL
Proben	serum, plasma and other biological fluids

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: cardiovascular disease. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human CPP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human CPP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human CPP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human CPP in the samples is then determined by comparing the OD of the samples to the standard curve
