Product Datasheet

Guinea pig CRP(C Reactive Protein) ELISA Kit EBT-ELK10673

Artikelname	Guinea pig CRP(C Reactive Protein) ELISA Kit
Artikelnummer	EBT-ELK10673
Hersteller Artikelnummer	ELK10673
Alternativnummer	EBT-ELK10673-96, EBT-ELK10673-96X5, EBT-ELK10673-48
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Guinea pig
Konzentration	50 µg/mL
Detektionsbereich	0.78-50 µg/mL
Sensitivitaet	0.21 µg/mL
UniProt	P49254
Proben	Serum, plasma and other biological fluids.

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Tumor immunity, Infection immunity, Cardiovascular biology, Rheumatology, .
Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Guinea pig CRP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Guinea pig CRP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Guinea pig CRP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Guinea pig CRP in the samples is then determined by comparing the OD of the samples to the standard curve
