Product Datasheet

Dog HGF(Hepatocyte Growth Factor) ELISA Kit EBT-ELK10712

Artikelname	Dog HGF(Hepatocyte Growth Factor) ELISA Kit
Artikelnummer	EBT-ELK10712
Hersteller Artikelnummer	ELK10712
Alternativnummer	EBT-ELK10712-96, EBT-ELK10712-96X5, EBT-ELK10712-48
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Canine
Konzentration	50 ng/mL
Detektionsbereich	0.78-50 ng/mL
Sensitivitaet	0.15 ng/mL
UniProt	Q867B7
Proben	serum, plasma and other biological fluids

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Tumor immunity, Hepatology, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Dog HGF. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Dog HGF. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Dog HGF, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Dog HGF in the samples is then determined by comparing the OD of the samples to the standard curve
