### Human MDA(Malondialdehyde) ELISA Kit EBT-ELK10897

Artikelname	Human MDA(Malondialdehyde) ELISA Kit
Artikelnummer	EBT-ELK10897
Hersteller Artikelnummer	ELK10897
Alternativnummer	EBT-ELK10897-96, EBT-ELK10897-96X5, EBT-ELK10897-48
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	2000 ng/mL
Detektionsbereich	31.25-2000 ng/mL
Sensitivitaet	9.11 ng/mL
Proben	serum, plasma and other biological fluids

Anwendungsbeschreibung

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Metabolic pathway, Hepatology, Hormone metabolism,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human MDA. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human MDA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human MDA in the samples is then determined by comparing the OD of the samples to the standard curve
