Product Datasheet

Mouse TBG(Thyroxine Binding Globulin) ELISA Kit EBT-ELK11115

Artikelname	Mouse TBG(Thyroxine Binding Globulin) ELISA Kit
Artikelnummer	EBT-ELK11115
Hersteller Artikelnummer	ELK11115
Alternativnummer	EBT-ELK11115-96, EBT-ELK11115-48, EBT-ELK11115-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Konzentration	10 µg/mL
Detektionsbereich	0.16-10 µg/mL
Sensitivitaet	0.051 µg/mL
UniProt	P61939
Proben	Serum, plasma and other biological fluids.

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Endocrinology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse TBG. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse TBG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse TBG, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse TBG in the samples is then determined by comparing the OD of the samples to the standard curve
