Human CFD(Complement Factor D) ELISA Kit EBT-ELK1128

Artikelname	Human CFD(Complement Factor D) ELISA Kit
Artikelnummer	EBT-ELK1128
Hersteller Artikelnummer	ELK1128
Alternativnummer	EBT-ELK1128-96, EBT-ELK1128-48, EBT-ELK1128-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	40 ng/mL
Detektionsbereich	0.63-40 ng/mL
Sensitivitaet	0.254 ng/mL
UniProt	P00746
Proben	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Immune molecule,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human CFD. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human CFD. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human CFD, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human CFD in the samples is then determined by comparing the OD of the samples to the standard curve
