Product Datasheet

Human Dyn(Big Dynorphin) ELISA Kit EBT-ELK1675

Artikelname	Human Dyn(Big Dynorphin) ELISA Kit
Artikelnummer	EBT-ELK1675
Hersteller Artikelnummer	ELK1675
Alternativnummer	EBT-ELK1675-96, EBT-ELK1675-48, EBT-ELK1675-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	500 pg/mL
Detektionsbereich	7.82-500 pg/mL
Sensitivitaet	2.51 pg/mL
Proben	Serum, plasma and other biological fluids

Anwendungsbeschreibung

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Signal transduction, Neuro science,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human Dyn. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human Dyn. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human Dyn in the samples is then determined by comparing the OD of the samples to the standard curve
