Product Datasheet

Human CKMT1A(Creatine Kinase, Mitochondrial 1A) ELISA Kit EBT-ELK1905

Artikelname	Human CKMT1A(Creatine Kinase, Mitochondrial 1A) ELISA Kit
Artikelnummer	EBT-ELK1905
Hersteller Artikelnummer	ELK1905
Alternativnummer	EBT-ELK1905-96, EBT-ELK1905-48, EBT-ELK1905-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	100 ng/mL
Detektionsbereich	1.57-100 ng/mL
Sensitivitaet	0.51 ng/mL
UniProt	P12532
Proben	Serum, plasma, tissue homogenates and other biological fluids.

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cardiovascular biology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human CKMT1A. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human CKMT1A. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human CKMT1A, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human CKMT1A in the samples is then determined by comparing the OD of the samples to the standard curve
