## Product Datasheet

### Mouse DLAT(Dihydrolipoyl Transacetylase) ELISA Kit EBT-ELK2372

Artikelname	Mouse DLAT(Dihydrolipoyl Transacetylase) ELISA Kit
Artikelnummer	EBT-ELK2372
Hersteller Artikelnummer	ELK2372
Alternativnummer	EBT-ELK2372-96, EBT-ELK2372-48, EBT-ELK2372-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Konzentration	100 ng/mL
Detektionsbereich	1.57-100 ng/mL
Sensitivitaet	0.6 ng/mL
Proben	Tissue homogenates, cell lysates and other biological fluids

Anwendungsbeschreibung	<p>Assay Type: Sandwich. Assay length: 3.5h. Research Area: Enzyme &amp; Kinase, Infection immunity, Hepatology, Gastroenterology, Autoimmunity, .</p> <p>Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse DLAT. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse DLAT. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse DLAT, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Mouse DLAT in the samples is then determined by comparing the OD of the samples to the standard curve</p>
