Mouse REG4(Regenerating Islet Derived Protein 4) ELISA Kit EBT-ELK2379

Artikelname	Mouse REG4(Regenerating Islet Derived Protein 4) ELISA Kit
Artikelnummer	EBT-ELK2379
Hersteller Artikelnummer	ELK2379
Alternativnummer	EBT-ELK2379-96, EBT-ELK2379-48, EBT-ELK2379-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Konzentration	3000 pg/mL
Detektionsbereich	46.88-3000 pg/mL
Sensitivitaet	17.53 pg/mL
UniProt	Q9D8G5
Proben	serum, plasma, tissue homogenates and other biological fluids

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Infection immunity, Endocrinology, Hepatology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse REG4. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse REG4. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse REG4, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse REG4 in the samples is then determined by comparing the OD of the samples to the standard curve
