Product Datasheet

Human LAT1(Large Neutral Amino Acid Transporter 1) Microsample ELISA Kit EBT-ELK2451MS

Artikelname	Human LAT1(Large Neutral Amino Acid Transporter 1) Microsample ELISA Kit
Artikelnummer	EBT-ELK2451MS
Hersteller Artikelnummer	ELK2451MS
Alternativnummer	EBT-ELK2451MS-96, EBT-ELK2451MS-48, EBT-ELK2451MS-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	10 ng/mL
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.058 ng/mL
UniProt	Q01650
Proben	tissue homogenates, cell lysates and other biological fluids

Anwendungsbeschreibung	<p>Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction, Metabolic pathway, Infection immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human LAT1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human LAT1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human LAT1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human LAT1 in the samples is then determined by comparing the OD of the samples to the standard curve</p>
