Product Datasheet

Human LACRT(Lacritin) ELISA Kit EBT-ELK2907

Artikelname	Human LACRT(Lacritin) ELISA Kit
Artikelnummer	EBT-ELK2907
Hersteller Artikelnummer	ELK2907
Alternativnummer	EBT-ELK2907-96, EBT-ELK2907-48, EBT-ELK2907-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	100 ng/mL
Detektionsbereich	1.57-100 ng/mL
Sensitivitaet	0.61 ng/mL
UniProt	Q9GZZ8
Proben	saliva, tears and other biological fluids

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Immune molecule,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human LACRT. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human LACRT. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human LACRT, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human LACRT in the samples is then determined by comparing the OD of the samples to the standard curve
