Product Datasheet

Human CPT2(Carnitine Palmitoyltransferase 2, Mitochondrial) ELISA Kit EBT-ELK3217

Artikelname	Human CPT2(Carnitine Palmitoyltransferase 2, Mitochondrial) ELISA Kit
Artikelnummer	EBT-ELK3217
Hersteller Artikelnummer	ELK3217
Alternativnummer	EBT-ELK3217-96, EBT-ELK3217-48, EBT-ELK3217-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	20 ng/mL
Detektionsbereich	0.32-20 ng/mL
Sensitivitaet	0.112 ng/mL
UniProt	P23786
Proben	Tissue homogenates, cell lysates and other biological fluids

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Enzyme & Kinase, Metabolic pathway, Neuro science,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human CPT2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human CPT2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human CPT2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human CPT2 in the samples is then determined by comparing the OD of the samples to the standard curve
