Human CENPE(Centromere Protein E) ELISA Kit EBT-ELK4605

Artikelname	Human CENPE(Centromere Protein E) ELISA Kit
Artikelnummer	EBT-ELK4605
Hersteller Artikelnummer	ELK4605
Alternativnummer	EBT-ELK4605-96, EBT-ELK4605-48, EBT-ELK4605-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	20 ng/mL
Detektionsbereich	0.32-20 ng/mL
Sensitivitaet	0.129 ng/mL
UniProt	Q02224
Proben	Tissue homogenates, cell lysates and other biological fluids.

Anwendungsbeschreibung	<p>Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction, Developmental science,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human CENPE. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human CENPE. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human CENPE, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human CENPE in the samples is then determined by comparing the OD of the samples to the standard curve</p>
