## Product Datasheet

### Human FAK(Focal Adhesion Kinase) ELISA Kit EBT-ELK4811

Artikelname	Human FAK(Focal Adhesion Kinase) ELISA Kit
Artikelnummer	EBT-ELK4811
Hersteller Artikelnummer	ELK4811
Alternativnummer	EBT-ELK4811-96, EBT-ELK4811-48, EBT-ELK4811-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	100 ng/mL
Detektionsbereich	1.57-100 ng/mL
Sensitivitaet	0.54 ng/mL
UniProt	<a href="#">Q05397</a>
Proben	Tissue homogenates and other biological fluids.

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction, Enzyme & Kinase, Tumor immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human FAK. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human FAK. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human FAK, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human FAK in the samples is then determined by comparing the OD of the samples to the standard curve
