Human PL(Placental Lactogen) ELISA Kit EBT-ELK4824

Artikelname	Human PL(Placental Lactogen) ELISA Kit
Artikelnummer	EBT-ELK4824
Hersteller Artikelnummer	ELK4824
Alternativnummer	EBT-ELK4824-96, EBT-ELK4824-48, EBT-ELK4824-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	160 ng/mL
Detektionsbereich	2.5-160 ng/mL
Sensitivitaet	0.9 ng/mL
Proben	serum, plasma, tissue homogenates and other biological fluids

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Endocrinology, Reproductive science, Hormone metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human PL. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human PL. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human PL, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human PL in the samples is then determined by comparing the OD of the samples to the standard curve
