## Product Datasheet

### Mouse ANP(Atrial Natriuretic Peptide) ELISA Kit EBT-ELK5439

Artikelname	Mouse ANP(Atrial Natriuretic Peptide) ELISA Kit
Artikelnummer	EBT-ELK5439
Hersteller Artikelnummer	ELK5439
Alternativnummer	EBT-ELK5439-96, EBT-ELK5439-48, EBT-ELK5439-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Konzentration	1000 pg/mL
Detektionsbereich	15.63-1000 pg/mL
Sensitivitaet	4.74 pg/mL
Proben	serum, plasma, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Endocrinology, Cardiovascular biology, Hormone metabolism,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Mouse ANP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse ANP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse ANP in the samples is then determined by comparing the OD of the samples to the standard curve
