Product Datasheet

Dog REN(Renin) ELISA Kit EBT-ELK5621

Artikelname	Dog REN(Renin) ELISA Kit
Artikelnummer	EBT-ELK5621
Hersteller Artikelnummer	ELK5621
Alternativnummer	EBT-ELK5621-96, EBT-ELK5621-48, EBT-ELK5621-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Canine
Konzentration	1000 pg/mL
Detektionsbereich	15.63-1000 pg/mL
Sensitivitaet	6 pg/mL
UniProt	Q6DYE7
Proben	Serum, plasma, tissue homogenates and other biological fluids.

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Endocrinology, Cardiovascular biology, Kidney biomarker, Hormone metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Dog REN. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Dog REN. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Dog REN, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Dog REN in the samples is then determined by comparing the OD of the samples to the standard curve
