Horse Presepsin(Presepsin) ELISA Kit EBT-ELK9673

Artikelname	Horse Presepsin(Presepsin) ELISA Kit
Artikelnummer	EBT-ELK9673
Hersteller Artikelnummer	ELK9673
Alternativnummer	EBT-ELK9673-96, EBT-ELK9673-48, EBT-ELK9673-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Equine
Konzentration	10 ng/mL
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.059 ng/mL
Proben	Serum, plasma and other biological fluids

Anwendungsbeschreibung	Assay Type: Sandwich. Assay length: 3.5h. Research Area: Sepsis. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Horse Presepsin. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Horse Presepsin. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Horse Presepsin, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Horse Presepsin in the samples is then determined by comparing the OD of the samples to the standard curve
