| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Application                | Control, SDS-PAGE, WB                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Conjugation                | Unconjugated                                                                                                                                                                                                                                                  |
| Product Description        | Prokaryotic Human Bone Morphogenetic Protein 8A is a purified Prokaryotic Protein. Purity: >90% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Human (Homo sapiens). Target Name: Bone Morphogenetic Protein 8A.... |
| Molecular Weight           | 38kDa                                                                                                                                                                                                                                                         |
| Tag                        | Two N-Terminal Tags, His-tag and SUMO-tag                                                                                                                                                                                                                     |
| NCBI                       | <a href="#">353500</a>                                                                                                                                                                                                                                        |
| Buffer                     | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                       |

|                   |                               |
|-------------------|-------------------------------|
| Expression System | Prokaryotic expression        |
| Purity            | >90% by SDS-PAGE              |
| Form              | Freeze-dried powder           |
| Target            | Bone Morphogenetic Protein 8A |
