| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | Tubby-related protein 1, also known as TuLP1, is a member of the TuLP family of four proteins (TuB and TuLP1, -2, and -3), characterized structurally by the highly conserved C-terminal half of the protein. In the retina, TuLP1 is found exclusively in... |
