| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | VPS25, also known as vacuolar protein-sorting-associated protein 25, consists of the ESCRT-II complex (endosomal sorting complex required for transport II), which is required for multivesicular body (MVB) formation and sorting of endosomal cargo prot... |
| Molekulargewicht         | 23.3                                                                                                                                                                                                                                                          |
| NCBI                     | <a href="#">115729</a>                                                                                                                                                                                                                                        |
| Reinheit                 | 85% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Formulierung             | Supplied as a liquid in 20mM Tris-HCl, pH 8.0, 0.1M sodium chloride, 20% glycerol.                                                                                                                                                                            |
