| Wirt                     | Human                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Immunogen                | Full length recombinant NS1 protein of Zika virus produced in HEK293 cells.                                                                                                                                                                                   |
| Produktbeschreibung      | Zika virus is an emerging disease that is spread by Aedes mosquitoes. The virus was first isolated in Central Africa, and has since spread to South Asia and more recently to South America. It is a member of the flavivirus family, and is structurally ... |
| Reinheit                 | >98% (SDS-PAGE). Purified from cell culture supernatant by lectin affinity chromatography.                                                                                                                                                                    |
| Formulierung             | Supplied as a liquid in PBS, pH 7.4. No preservative added.                                                                                                                                                                                                   |
