| Produktbeschreibung      | 1-Methyl-3-propyl-1H-pyrazole-5-carboxylic Acid-d3 is an isotope labelled intermediate in the synthesis of Sildenafil (S435000) and respective analogs. Molecular Formula: C <sub>8</sub> H <sub>9</sub> D <sub>3</sub> N <sub>2</sub> O <sub>2</sub> Molecular Weight: 171.21 Storage and Stability: Store at -20C. For m... |
| Molekulargewicht         | 171.21                                                                                                                                                                                                                                                                                                                        |
| Formulierung             | Supplied as a Off-White                                                                                                                                                                                                                                                                                                       |
