| Kategorie                | Biochemikalien                                                                                                                                                                                                                                                                                                   |
| Produktbeschreibung      | 4,4,5,5,6,6,7,7,8,8,9,9,10,10,11,11,11-Heptadecafluoroundecanoic Acid is a derivative of Undecanoic Acid (U788850) which is a saturated fatty acid. It may be used to activate orphan G protein-coupled receptor GPR40. Molecular Formula: C <sub>11</sub> H <sub>5</sub> F <sub>17</sub> O <sub>2</sub> Solu... |
| Molekulargewicht         | 492.13                                                                                                                                                                                                                                                                                                           |
| Formulierung             | Supplied as a White to Off-White Solid                                                                                                                                                                                                                                                                           |
| CAS Nummer               | [34598-33-9]                                                                                                                                                                                                                                                                                                     |
