| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                              |
| Produktbeschreibung      | Source: Recombinant protein corresponding to aa13-475 from human Hexokinase-1, fused to 6X His-Tag at N-terminal, expressed in E.coli. Molecular Weight: ~55.9kD Amino Acid Sequence: ELKDDQVKKIDKYLYAMRLSDETLIDIMTRFRKEMKNGLSRDFNPTATVKMLP TFVRSIPDGSEKGDF... |
| Molekulargewicht         | 55.9                                                                                                                                                                                                                                                           |
| UniProt                  | <a href="#">P19367</a>                                                                                                                                                                                                                                         |
| Reinheit                 | 90% (SDS-PAGE)                                                                                                                                                                                                                                                 |
| Formulierung             | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                             |
