| Alternativnummer         | USB-I0800-12-50                                                                                                                                                                                                                                                |
| Hersteller               | US Biological                                                                                                                                                                                                                                                  |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                        |
| Immunogen                | Synthetic peptide corresponding to 14aa from the C-terminus of mouse macrophage nitric oxide synthase.                                                                                                                                                         |
| Produktbeschreibung      | Nitric Oxide Synthases are the only enzymes known to simultaneously require five bound cofactors, FAD, FMN, haem, tetrahydrobiopterin (BH4) and Ca++-Calmodulin (CAM). In mammals, there are three distinct genes for NOS, NOS I is neuronal, NOS II is cyt... |
