| Wirt                     | Rat                                                                                                                                                                                                                                                           |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FLISA                                                                                                                                                                                                                                                         |
| Immunogen                | Purified IgG from BALB/c mice.                                                                                                                                                                                                                                |
| Produktbeschreibung      | MaxLight(TM)550 is a new Yellow-Green photostable dye conjugate comparable to Alexa Fluor(TM)546, 555, DyLight(TM)549 , Cy3(TM), TRITC and offers better labeling efficiency, brighter imaging and increased immunodetection. Absorbance (550nm), Emission... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [3H2371 LO-MG2a-7]                                                                                                                                                                                                                                            |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |
| UniProt                  | <a href="#">P01863</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by affinity chromatography from tissue culture supernatant.                                                                                                                                                                                          |

|              |                                                                    |
|--------------|--------------------------------------------------------------------|
| Formulierung | Supplied as a liquid in PBS, pH 7.2. Labeled with MaxLight(TM)550. |
