## Product Datasheet

**IgG2, Fc (Biotin), IgG1, Clone: [8.F.176], Mouse, Monoclonal  
USB-I1904-83-BIOTIN**

|                          |                                                                                                                                                                                                                                                               |

| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                | Human IgG2 (Fc portion).                                                                                                                                                                                                                                      |
| Produktbeschreibung      | Immunoglobulin G (IgG) are antibody molecules. Each IgG is composed of four peptide chains-two heavy chains and two light chains. Each IgG has two antigen binding sites. Other Immunoglobulins may be described in terms of polymers with the IgG structu... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [8.F.176]                                                                                                                                                                                                                                                     |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |
| Reinheit                 | Purified by Protein A affinity chromatography.                                                                                                                                                                                                                |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Biotin.                                                                                                                                                                              |
