| Alternativnummer         | USB-I8432-29-50                                                                                                                                                                                                                                               |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Goat                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Immunogen                | NS0-derived rmIL-10 Rbeta extracellular domain (rmIL-10 Rbeta, aa 21-220, UniProt Q61190).                                                                                                                                                                    |
| Produktbeschreibung      | IL-10 Rbeta (Interleukin 10 receptor beta, also IL-10R2, CD210b and CRF2-4) is an 80-85kD member of the type II cytokine receptor family of proteins. It is very widely expressed, and serves as a signal transducing accessory chain when complexed to th... |
| UniProt                  | <a href="#">Q61190</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Formulierung             | Supplied as a lyophilized powder from PBS, pH 7.4, BSA. Labeled with Biotin. Reconstitute with 250ul sterile PBS.                                                                                                                                             |
