Rat Dopamine (DA) ELISA Kit ASC-KTE100902

Artikelname	Rat Dopamine (DA) ELISA Kit
Artikelnummer	ASC-KTE100902
Hersteller Artikelnummer	KTE100902
Alternativnummer	ASC-KTE100902-48, ASC-KTE100902-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Rat

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Rat Dopamine (DA) ELISA Kit employs a two-site sandwich ELISA to quantitate DA in samples. An antibody specific for DA has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any DA present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for DA is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of DA bound in the initial step. The color development is stopped and the intensity of the color is measured.
