Human Transitional endoplasmic reticulum ATPase (VCP) ELISA Kit ASC-KTE60065

Artikelname	Human Transitional endoplasmic reticulum ATPase (VCP) ELISA Kit
Artikelnummer	ASC-KTE60065
Hersteller Artikelnummer	KTE60065
Alternativnummer	ASC-KTE60065-48, ASC-KTE60065-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Transitional endoplasmic reticulum ATPase (VCP) ELISA Kit employs a two-site sandwich ELISA to quantitate VCP....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	VCP
NCBI	7415
UniProt	P55072
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung	This Human Transitional endoplasmic reticulum ATPase (VCP) ELISA Kit employs a two-site sandwich ELISA to quantitate VCP in samples. An antibody specific for VCP has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any VCP present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for VCP is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of VCP bound in the initial step. The color development is stopped and the intensity of the color is measured.
