Human Trypsinogen activation peptide (TAP) ELISA Kit ASC-KTE60082

Artikelname	Human Trypsinogen activation peptide (TAP) ELISA Kit
Artikelnummer	ASC-KTE60082
Hersteller Artikelnummer	KTE60082
Alternativnummer	ASC-KTE60082-48, ASC-KTE60082-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Trypsinogen activation peptide (TAP) ELISA Kit employs a two-site sandwich ELISA to quantitate USO1....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	USO1
NCBI	8615
UniProt	O60763
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung	This Human Trypsinogen activation peptide (TAP) ELISA Kit employs a two-site sandwich ELISA to quantitate USO1 in samples. An antibody specific for USO1 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any USO1 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for USO1 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of USO1 bound in the initial step. The color development is stopped and the intensity of the color is measured.
