Human Cellular tumor antigen p53 (TP53) ELISA Kit ASC-KTE60156

Artikelname	Human Cellular tumor antigen p53 (TP53) ELISA Kit
Artikelnummer	ASC-KTE60156
Hersteller Artikelnummer	KTE60156
Alternativnummer	ASC-KTE60156-48, ASC-KTE60156-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Cellular tumor antigen p53 (TP53) ELISA Kit employs a two-site sandwich ELISA to quantitate TP53....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Cellular tumor antigen p53 (TP53) ELISA Kit employs a two-site sandwich ELISA to quantitate TP53 in samples. An antibody specific for TP53 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any TP53 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for TP53 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of TP53 bound in the initial step. The color development is stopped and the intensity of the color is measured.
