Product Datasheet

Human B cell activation factor (BAFF) ELISA Kit ASC-KTE60205

Artikelname	Human B cell activation factor (BAFF) ELISA Kit
Artikelnummer	ASC-KTE60205
Hersteller Artikelnummer	KTE60205
Alternativnummer	ASC-KTE60205-48, ASC-KTE60205-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human B cell activation factor (BAFF) ELISA Kit employs a two-site sandwich ELISA to quantitate TNFSF13B....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human B cell activation factor (BAFF) ELISA Kit employs a two-site sandwich ELISA to quantitate TNFSF13B in samples. An antibody specific for TNFSF13B has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any TNFSF13B present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for TNFSF13B is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of TNFSF13B bound in the initial step. The color development is stopped and the intensity of the color is measured.
