## Product Datasheet

### Human A proliferation inducing ligand (APRIL) ELISA Kit ASC-KTE60206

Artikelname	Human A proliferation inducing ligand (APRIL) ELISA Kit
Artikelnummer	ASC-KTE60206
Hersteller Artikelnummer	KTE60206
Alternativnummer	ASC-KTE60206-48, ASC-KTE60206-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human A proliferation inducing ligand (APRIL) ELISA Kit employs a two-site sandwich ELISA to quantitate TNFSF13 in samples. An antibody specific for TNFSF13 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any TNFSF13 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for TNFSF13 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of TNFSF13 bound in the initial step. The color development is stopped and the intensity of the color is measured.
