## Product Datasheet

### Human TCDD-inducible poly [ADP-ribose] polymerase (TIPARP) ELISA Kit ASC-KTE60321

Artikelname	Human TCDD-inducible poly [ADP-ribose] polymerase (TIPARP) ELISA Kit
Artikelnummer	ASC-KTE60321
Hersteller Artikelnummer	KTE60321
Alternativnummer	ASC-KTE60321-48, ASC-KTE60321-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human TCDD-inducible poly [ADP-ribose] polymerase (TIPARP) ELISA Kit employs a two-site sandwich ELISA to quantitate TIPARP in samples. An antibody specific for TIPARP has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any TIPARP present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for TIPARP is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of TIPARP bound in the initial step. The color development is stopped and the intensity of the color is measured.
