## Product Datasheet

### Human Squalene monooxygenase (SQLE) ELISA Kit ASC-KTE60353

Artikelname	Human Squalene monooxygenase (SQLE) ELISA Kit
Artikelnummer	ASC-KTE60353
Hersteller Artikelnummer	KTE60353
Alternativnummer	ASC-KTE60353-48, ASC-KTE60353-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Squalene monooxygenase (SQLE) ELISA Kit employs a two-site sandwich ELISA to quantitate SQLE in samples. An antibody specific for SQLE has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SQLE present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SQLE is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SQLE bound in the initial step. The color development is stopped and the intensity of the color is measured.
