Product Datasheet

Human Steroidogenic acute regulatory protein, mitochondrial (STAR) ELISA Kit ASC-KTE60374

Artikelname	Human Steroidogenic acute regulatory protein, mitochondrial (STAR) ELISA Kit
Artikelnummer	ASC-KTE60374
Hersteller Artikelnummer	KTE60374
Alternativnummer	ASC-KTE60374-48, ASC-KTE60374-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Steroidogenic acute regulatory protein, mitochondrial (STAR) ELISA Kit employs a two-site sandwich ELISA to quantitate STAR in samples. An antibody specific for STAR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any STAR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for STAR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of STAR bound in the initial step. The color development is stopped and the intensity of the color is measured.
