### Human Signal transducer and activator of transcription 5 (STAT5) ELISA Kit ASC-KTE60379

Artikelname	Human Signal transducer and activator of transcription 5 (STAT5) ELISA Kit
Artikelnummer	ASC-KTE60379
Hersteller Artikelnummer	KTE60379
Alternativnummer	ASC-KTE60379-48, ASC-KTE60379-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Signal transducer and activator of transcription 5 (STAT5) ELISA Kit employs a two-site sandwich ELISA to quantitate STAT5A in samples. An antibody specific for STAT5A has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any STAT5A present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for STAT5A is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of STAT5A bound in the initial step. The color development is stopped and the intensity of the color is measured.
