Human Threonyl-tRNA synthetase, cytoplasmic (TARS) ELISA Kit ASC-KTE60479

Artikelname	Human Threonyl-tRNA synthetase, cytoplasmic (TARS) ELISA Kit
Artikelnummer	ASC-KTE60479
Hersteller Artikelnummer	KTE60479
Alternativnummer	ASC-KTE60479-48, ASC-KTE60479-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Threonyl-tRNA synthetase, cytoplasmic (TARS) ELISA Kit employs a two-site sandwich ELISA to quantitate TARS in samples. An antibody specific for TARS has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any TARS present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for TARS is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of TARS bound in the initial step. The color development is stopped and the intensity of the color is measured.
