### Human Spermatogenesis-associated serine-rich protein 1 (SPATS1) ELISA Kit ASC-KTE60539

Artikelname	Human Spermatogenesis-associated serine-rich protein 1 (SPATS1) ELISA Kit
Artikelnummer	ASC-KTE60539
Hersteller Artikelnummer	KTE60539
Alternativnummer	ASC-KTE60539-48, ASC-KTE60539-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Spermatogenesis-associated serine-rich protein 1 (SPATS1) ELISA Kit employs a two-site sandwich ELISA to quantitate SPATS1 in samples. An antibody specific for SPATS1 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SPATS1 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SPATS1 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SPATS1 bound in the initial step. The color development is stopped and the intensity of the color is measured.
