### Human Sodium-dependent neutral amino acid transporter B (SLC6A19) ELISA Kit ASC-KTE60595

Artikelname	Human Sodium-dependent neutral amino acid transporter B (SLC6A19) ELISA Kit
Artikelnummer	ASC-KTE60595
Hersteller Artikelnummer	KTE60595
Alternativnummer	ASC-KTE60595-48, ASC-KTE60595-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Sodium-dependent neutral amino acid transporter B (SLC6A19) ELISA Kit employs a two-site sandwich ELISA to quantitate SLC6A19 in samples. An antibody specific for SLC6A19 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SLC6A19 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SLC6A19 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SLC6A19 bound in the initial step. The color development is stopped and the intensity of the color is measured.
