## Product Datasheet

### Human Neutral amino acid transporter B (SLC1A5) ELISA Kit ASC-KTE60617

Artikelname	Human Neutral amino acid transporter B (SLC1A5) ELISA Kit
Artikelnummer	ASC-KTE60617
Hersteller Artikelnummer	KTE60617
Alternativnummer	ASC-KTE60617-48, ASC-KTE60617-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Neutral amino acid transporter B (SLC1A5) ELISA Kit employs a two-site sandwich ELISA to quantitate SLC1A5 in samples. An antibody specific for SLC1A5 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SLC1A5 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SLC1A5 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SLC1A5 bound in the initial step. The color development is stopped and the intensity of the color is measured.
