Human Synaptic vesicular amine transporter (SLC18A2) ELISA Kit ASC-KTE60622

Artikelname	Human Synaptic vesicular amine transporter (SLC18A2) ELISA Kit
Artikelnummer	ASC-KTE60622
Hersteller Artikelnummer	KTE60622
Alternativnummer	ASC-KTE60622-48, ASC-KTE60622-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Synaptic vesicular amine transporter (SLC18A2) ELISA Kit employs a two-site sandwich ELISA to quantitate SLC18A2 in samples. An antibody specific for SLC18A2 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SLC18A2 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SLC18A2 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SLC18A2 bound in the initial step. The color development is stopped and the intensity of the color is measured.
