Product Datasheet

Human Allograft inflammatory factor 1 (AIF1) ELISA Kit ASC-KTE60632

Artikelname	Human Allograft inflammatory factor 1 (AIF1) ELISA Kit
Artikelnummer	ASC-KTE60632
Hersteller Artikelnummer	KTE60632
Alternativnummer	ASC-KTE60632-48, ASC-KTE60632-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Allograft inflammatory factor 1 (AIF1) ELISA Kit employs a two-site sandwich ELISA to quantitate AIF1 in samples. An antibody specific for AIF1 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any AIF1 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for AIF1 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of AIF1 bound in the initial step. The color development is stopped and the intensity of the color is measured.
