Human Tyrosine-protein phosphatase non-receptor type substrate 1 (SIRPA) ELISA Kit ASC-KTE60657

Artikelname	Human Tyrosine-protein phosphatase non-receptor type substrate 1 (SIRPA) ELISA Kit
Artikelnummer	ASC-KTE60657
Hersteller Artikelnummer	KTE60657
Alternativnummer	ASC-KTE60657-48, ASC-KTE60657-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Tyrosine-protein phosphatase non-receptor type substrate 1 (SIRPA) ELISA Kit employs a two-site sandwich ELISA to quantitate SIRPA in samples. An antibody specific for SIRPA has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SIRPA present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SIRPA is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SIRPA bound in the initial step. The color development is stopped and the intensity of the color is measured.
