## Product Datasheet

### Human Melanocyte protein PMEL (SILV) ELISA Kit ASC-KTE60658

Artikelname	Human Melanocyte protein PMEL (SILV) ELISA Kit
Artikelnummer	ASC-KTE60658
Hersteller Artikelnummer	KTE60658
Alternativnummer	ASC-KTE60658-48, ASC-KTE60658-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Melanocyte protein PMEL (SILV) ELISA Kit employs a two-site sandwich ELISA to quantitate SILV in samples. An antibody specific for SILV has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SILV present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SILV is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SILV bound in the initial step. The color development is stopped and the intensity of the color is measured.
