Human L-Selectin (SELL) ELISA Kit ASC-KTE60719

Artikelname	Human L-Selectin (SELL) ELISA Kit
Artikelnummer	ASC-KTE60719
Hersteller Artikelnummer	KTE60719
Alternativnummer	ASC-KTE60719-48, ASC-KTE60719-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human L-Selectin (SELL) ELISA Kit employs a two-site sandwich ELISA to quantitate SELL....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human L-Selectin (SELL) ELISA Kit employs a two-site sandwich ELISA to quantitate SELL in samples. An antibody specific for SELL has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SELL present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SELL is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SELL bound in the initial step. The color development is stopped and the intensity of the color is measured.
