### Human Protein-associating with the carboxyl-terminal domain of ezrin (SCYL3) ELISA Kit ASC-KTE60730

Artikelname	Human Protein-associating with the carboxyl-terminal domain of ezrin (SCYL3) ELISA Kit
Artikelnummer	ASC-KTE60730
Hersteller Artikelnummer	KTE60730
Alternativnummer	ASC-KTE60730-48, ASC-KTE60730-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Protein-associating with the carboxyl-terminal domain of ezrin (SCYL3) ELISA Kit employs a two-site sandwich ELISA to quantitate SCYL3 in samples. An antibody specific for SCYL3 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SCYL3 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SCYL3 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SCYL3 bound in the initial step. The color development is stopped and the intensity of the color is measured.
